Summary

Software developer with a solid foundation in building scalable web applications, backend systems, authentication modules, and database-driven applications. Seeking an opportunity to contribute to real-world software development and grow as a software engineer.

Technical Skills

Programming Languages: Java, JavaScript, SQL, C, C++, C#

Frontend Technologies: HTML5, CSS3, Bootstrap 5, React.js

Backend Technologies: Spring Boot, Spring Security, Hibernate, JDBC, Node.js, Express.js, .NET, ADO.NET

Databases: MySQL, MongoDB, MS SQL Server

Tools & Platforms: Git, GitHub, Postman, Swagger, VS Code, Eclipse, Spring Tool Suite (STS), IntelliJ IDEA, SSMS

Core Concepts: DSA, OOP, DBMS, REST APIs, Authentication, Authorization, CRUD, MVC Architecture, JWT

Work Experience

Intern – 7Tech IT Services Pvt. Ltd. (Onsite)

Nov 2025 – Jan 2026

- Worked on full-stack development using Java, JavaScript, MySQL, MS SQL Server, C#, and .NET technologies.
- Developed desktop and backend applications using ADO.NET and Windows Forms with CRUD operations and database integration.
- Performed functional testing, debugging, and maintenance for real-world business applications.

Intern Engineer – Electrosoft Systems (Onsite)

Jun 2024 – Aug 2024

- Developed Python mini-projects to improve programming logic and problem-solving skills.
- Strengthened understanding of data structures, algorithms, and debugging techniques.
- Collaborated in team-based learning and technical development activities.

Projects

Tour Booking & AI Travel Planning System

June – 2026

Tech Stack: Java, Spring Boot, Spring Data JPA, Spring security(JWT), Swagger, ReactJS, MySQL

[Link](#)

- Developed a full-stack tour booking platform with role-based access for Admin, Tour Planner, and Customer modules.
- Built RESTful APIs for tour package, destination, booking, payment, review, and wishlist management using Spring Boot.
- Implemented JWT-based authentication, authorization, package approval workflow, and notification services.
- Integrated AI-powered travel planning features and developed responsive ReactJS interfaces connected to backend APIs.

BookStore Ecommerce Web Application

May – 2026

Tech Stack: React.js, Node.js, Express.js, MySQL, Thunder Client

[Link](#)

- Developed a full-stack ecommerce bookstore application with Admin, Customer, and Guest modules.
- Implemented JWT-based authentication and role-based authorization for secure access control.
- Implemented 8+ ecommerce functionalities including authentication, product management, cart handling and order processing.
- Designed RESTful APIs and integrated MySQL database for efficient CRUD operations and data management.

Education

PGCP-AC (Post Graduate Certificate Programme - Advanced Computing)

Feb 2026 – Aug 2026

CDAC Kharghar, Mumbai

B.E. in Computer Science and Engineering

2021 – Aug 2025

Kavayitri Bahinabai Chaudhari North Maharashtra University, Jalgaon

CGPA : 8.06/10.0

HSC – State Board

2020 – 2021

Percentage : 79.67%

SSC – State Board

2018 – 2019

Percentage : 77.00%

Certifications

- Java Full Stack Development – Symbiosis Skills and Professional University, Pune Jul 2025 – Oct 2025
- Oracle Database Foundations
- Java (Basic) Certificate – HackerRank Apr 2026
- SQL (Basic) Certificate – HackerRank May 2026
- Java Programming Language – Info Planet Institute Jan 2024
